

## THE MORNING APPEAL.

SUNDAY.....JANUARY 17

### Agricultural Meeting.

The State Board of Agriculture will meet today and Dr. Stubbs will present his ideas relative to granting Carson the racing privileges of the society and using the present grounds for an agricultural and stock exhibit. While east the Doctor visited several experiment stations and has thoroughly posted himself on the subject that he will present.

He believes that when the people understand the proposition they will see the advantages of the change suggested. It is understood that the meeting will be open to all parties interested, and doubtless the Board will be glad to hear the arguments on both sides of the question.—Journal.

### Took Two Posts.

A team of Doc. Benton's, attached to an ice wagon took an impromptu leave of absence and came down in front of the APPEAL office and took away two posts in front of the Ormsby House. The horses were not injured.

"Honest John" Sherman would be a very appropriate Secretary of State in the McKinley Cabinet. John is just one of those smooth, affable, adroit individuals who could pose effectually as an energetic worker for an international bimetallic agreement, at the very same time that he was most skillfully killing it at birth.—Sacramento Bee.

The work of John Sherman has brought more misery and poverty to the United States than did the war of the Rebellion. He is a worse traitor than Benedict Arnold. The treachery of Arnold did little damage to the United States, but the work of John Sherman has turned the Country over to the domination of Great Britain. For his infamy Sherman is given a place, second only to the President.

Miss Ida Gardner is visiting friends in this city.

The weather people say the storm is over.

Col. Boyle of Virginia was in this city yesterday.

Ben Hass arrived from Virginia City last evening.

Thirteen cars of cattle will be shipped this morning.

Chas. Mouser of Virginia was in this city yesterday.

Another murder occurred at Round Valley, Cal., yesterday.

Mrs. Hyman Cohn was a passenger for the Bay last evening.

Mrs. Sam Cohn and family arrived on yesterday's passenger.

Senator Commins of White Pine reached this city yesterday.

C. C. Wallace, Allen Bragg and C. C. Powning were in town yesterday.

Harry Flannery, Con. Abern, and G. R. Bradley are making a three cornered fight for Sargeant at Arms of the Assembly. They are all well qualified men and have had plenty of experience.

The Pacific States Type Foundry is still making a hot fight against the type trust and to this enterprising concern the printers of the Coast are indebted for the low prices of printing material.

The death of a man in New York from a disease contracted by holding a piece of paper money in his mouth is another warning to the public not to chew the rag.—Call.

A good comfortable easy chair in a house makes your guest feel at ease and gives him a pleasant impression of his surroundings. You can get these sort of chairs of Geo. Kitzmeyer.

Miss Blanch Bates denies that she will sever connections with the Frawley company. Her agent started the report and got a half column in all the papers. She denies it and gets another column. Thus the clever actress gets the better of the guileless press people.

## COMING IN.

### Carson Filling up With Members and Candidates.

Yesterday morning's train brought a large influx of members of the Legislature and a few people who are candidates for clerical positions.

The 4 o'clock train brought a lot more and the 6:30 from Virginia completed the quota. There is an army of people seeking positions which come within the Legislatures gift and a good many of them are pre-possessing young ladies whose appeals for votes the average law maker finds very hard to resist. The city is deluged with candidates cards and the members who are "on to combinations" take the back streets or secret themselves in their rooms at the hotel.

Most of the members have already made up their minds just who they will vote for and their combinations have mostly been made some time ago, so that those who come in it at a late hour are supposed to be throwing their time away, yet the pastime of hunting legislative positions is open to all the State and is a case of every man for himself and the devil for the hindmost.

### London Church Row.

During the ceremony at Mary Le Bow, confirming the election of Dr. Mendell Creighton as Bishop of London in succession to Dr. Temple, new Archbishop of Canterbury, John Kensil, a layman, read a protest against Creighton's election on the grounds of the prelates alleged "undo work of the Reformation by introducing trinkets of Rome."

He added that the doctor had been unfaithful to the promises made at his ordination to drive out all erroneous doctrines and punish "disobedient clergy who were trying to introduce Romish doctrines."

The Vicar-General refused to listen to the protest and Kensil protested again, twice asking why the Vicar-General did not call upon the objectors to come forward, and why he did not hear them.

This called forth applause and stamping of feet, mingled with cries of "Hear! Hear!" and counter cries, "Remember this is a church."

Kensil and his friends distributed copies of the protest among those present.

These queer proceedings remind one somewhat of the rows that are reported to take place at Sam Raney's caucus.

### Arrested for Embezzlement.

Yesterday W. Whitney, proprietor of the Weiland Saloon swore out a warrant charging John Lathrop, a former employee with having embezzled \$350 while in his employ. Lathrop is well known in this part of Nevada, having lived here for a number of years, working in various saloons, restaurants and hotels.

### Pumps Taken Out.

Leadville, Colo., Jan. 16.—A crisis in the troubles Leadville has undergone since last June has been reached and a calamity for worse than the strike of metallic miners here has overtaken the camp. For the first time in fifteen years the immense pumps that drained the big mines on Carbonate Hill, the wealth center of Leadville, have been entirely pulled out, while the pipe lines connecting are to be removed at once.

### Hardin Looses.

The mandamus proceeding began by Col. Hardin to establish his right as Lieutenant Governor resulted yesterday in a decision of the Supreme Court against him.

The Cubans have won another big battle by the capture of Santa Clara an out-post of Havana. They also captured large quantities of arms and munitions. This is a great event for Cuba, as with the captured arms they can put thousands of new recruits in the field. The way the patriots are situated death does not reduce the Cuban army. The armed troops are followed by unarmed men and when a machet or gun falls from a dead man's hand it is picked up by a live man with the cry of "Vere la Cuba libre," and the charge goes on.

Harvey Follett, a Carson raised boy, is on the trail of the Assemblymen, as he is after page of the Assembly. He is bright, intelligent, deserving and in every way fitted for the place.

Members of the Legislature are requested to leave orders for all daily California or local papers (except Carson papers) at John G. Fox's opposite the State Capitol. A full supply of all kinds of stationery and legislative bill files on hand.

The Fair litigation promises to be long drawn out and redolent of crime and conspiracy.

## Ex Governor Altgeld.

The Salt Lake Tribune has the following:

Gov. Altgeld is a strange man. He does some unaccountable things, but it cannot be said that he has ever done a thing in his life to further his personal ambition; that he has ever refrained from doing anything that he believed to be right lest he might lose friends thereby. And those who believe he is utterly bad, those who believe his instincts all evil, those who believe he is an enemy to the country, had better read the following words from his last message, then they had better go to the quiet of their own libraries and try to write something like them. Before they get through they will realize the difference between a clodhopper and an inspired soul:

Illinois is yet in the morning of her career. Seated at the heart of the continent the centuries are before her. Excelling in resources, in enterprise, in achievement and in the spirit of her people she must lead the way. Destined to be the center of intellectual activity, her genius must guide the Republic. Directed along the paths of humanity and justice not even the stars can measure her glory. This is the State which I commit to your care. Again, "Let us build for the centuries."

### No Wonder

A gushing young woman describes her first kiss says that it made her feel like a tub of butter swimming in honey, cologne, nutmeg and cranberries, and as though something was running down her nerves on feet of diamonds, escorted by several cupids in chariots drawn by angels, shaded with honeysuckle, and the whole spread over with melted rainbow.

An investigation of the matter shows that she was kissed by Henry Daugherty, collector for the Carson Water Company.

### Will Not Lecture.

Professor Snowden, the clairvoyant now at the residence of Dr. Fox, declines to lecture this evening. His declaration is a sad disappointment. The young man will remain but one week longer, giving sittings daily from 2 to 5:30 p. m. He goes direct from Carson to Indianapolis, where he will give a series of lectures before the Spiritualist's association of Indiana, the largest organization of its kind in existence.
